Motions for new trials have been filed in the cases of Bassetti vs. Bassetti and Durnell vs. West Coast Transit Co.

SISTER OF H. T. HOPPER DIES IN SANTA ROSA

Mrs. Eliza Cook, a sister of Henry Hopper, president of the First National bank of this city, passed away in Santa Rosa the early part of this week. The body was taken to San Francisco for cremation.

Mrs. Cook was without doubt the oldest surviving white woman settler in this part of the state. She arrived at Sonoma two years before the discovery of gold in California. Her father, the late Thomas Hopper, was one of the big land owners of Sonoma county and one of Santa Rosa's pioneer bankers.

DANCE AT REDWOOD

The Blue Lakes orchestra will give another of their good dances at Redwood valley tomorrow night. Attendance still increases and the dances are being much enjoyed.

Gus Dahlberg, who has been ill at his home in this city, was reported as in a very critical condition yesterday. He is suffering from pneumonia.

PROBLEM BEING STUDIED AT CALPELLA CROSSING

M. L. Gillogly, superintendent, and E. O. Corrigan, road master of the Northwestern Pacific railroad company, were here last Friday and, in company with Supervisor E. M. Ford, made a trip to Calpella, where they spent several hours investigating the site of the proposed new bridge across Russian river to connect with the new road up the east side of Redwood valley.

The railroad officials and Supervisor Ford have practically agreed on the construction of an overhead crossing for the county road, where it crosses the railroad tracks. The proposed overhead crossing will eliminate all danger of accidents. We understand the county and the railroad company will each stand half the expense of the construction.

Supervisor Ford now has the foundations for the new bridge set, and the work of erecting the structure will proceed as soon as the weather and flood conditions permit.

WIRELESS YESTERDAY SAYS TRAVELLERS WELL

A wireless message from Mr. and Mrs. George Jamison, who are several hundred miles out in the Pacific en route to Honolulu, was received late yesterday afternoon by their daughter, Mrs. Alfred Pioda. The wireless stated that the travelers were "feeling better" and were passing out of the storm.

The wireless came in response to one sent yesterday morning by Mrs. Pioda inquiring how her parents were and how they were weathering the storm on the Pacific which has been reported as the most severe in years.

Grave concern has been felt by relatives and friends over the effect of such a storm on Mrs. Jamison. Under the most favorable conditions she is a most timid ocean traveller. Great relief was felt by the family when the wireless was received.

The Sierra, on which the Jamisons had taken passage, was scheduled to sail Tuesday afternoon. The ship remained in the harbor until Wednesday morning and then went out in the face of a heavy storm. Official reports from the Sierra, after she had covered two hundred miles of the trip, were to the effect that she had was progressing without serious trouble. Many friends of the Jamisons were interested in word from the travellers and the shipping news was scanned first when San Francisco papers reached Ukiah.

BACK FROM TRIP

Mr. and Mrs. J. W. Eversole have returned from a motor trip to the southern part of the state. They also visited the Sacramento valley while away, meeting Mr. and Mrs. Guion, former residents of Ukiah, at Sacramento. Mrs. Guion, who was run down by a motorist some time ago, has received judgment for over $5200 in the Sacramento courts.

Mr. Eversole states that Chas. W. Wilson, formerly secretary at the Mendocino state hospital at Talmage, died at his home in the Sacramento valley a few weeks ago, news which will be received with much regret by Mr. Wilson's friends here.

LEE DAVID GUEST AT BIRTHDAY PARTY

Lee David was the guest of honor at a birthday dinner party given at his home last Sunday. The dinner was served at 5 o'clock, being partaken of by a number of guests. During the evening many friends visited the home and refreshments of coffee and cake were served to them at a late hour.

Mr. David was the recipient of several very handsome presents.

TO GIVE DANCE AT WILLITS

DeMotte's Merry Music Makers this week issued posters for a social dance to be given by them at Willits tomorrow night. As they are one of the favorite dance music organizations hereabouts, a considerable crowd of dance lovers will probably follow them to the northern city.

PEAR GROWERS' MEETING DRAWS BIG ATTENDANCE

A record attendance was present last Tuesday on the occasion of the meeting of the pear growers' association at the Odd Fellows' hall in this city. The inclement weather, which it was feared would be detrimental to the attendance, really proved a help, as numerous farmers unable to work at ranch work took advantage of the occasion to attend the meeting.

President P. E. McKinney presided at the gavel, and, following a short address by him, F. W. Dorn, of Lake county, one of the directors of the state association, reviewed the work of the association, past, present and prospective. Owing to illness, Farm Advisor Myszka was not able to be present, but his address on care in planting of nursery stock was read and illustrated by Assistant Farm Advisor Foote.

Frank T. Swett, president of the association, was the next speaker. He gave a very interesting talk on general matters in connection with the association, stressing particularly the danger of overproduction, and the necessity of turning more pears to the canneries and dryers instead of trying to market them all as green fruit. He also touched on the necessity for increasing the market demand by advertising, as the market is rapidly reaching a saturation point.

Following his address, the meeting adjourned to the banquet room, where the number of invited guests had swelled the attendance to a point where the banquet room was crowded to capacity. Some 200 were at the tables to enjoy the very appetizing menu which had been prepared by the ladies of the Christian church, and of which the piece-de-resistance was chicken pie. Very appropriately, Bartlett pears had their place on the menu also, being served as a salad and in an ice cream sundae.

The banquet was presided over by Leslie Crawford, as toastmaster. Senator Fred Handy delivered a few remarks, and several vocal selections, solos and duets, were rendered by Mrs. A. D. Hamilton, wife of the secretary of the state association, and Mrs. E. W. Stephens, wife of Market Director Stephens of this city. Mr. Stephens acted as accompanist. This was followed by community singing, which was indulged in until 2 o'clock, when the business session again convened.

Following an address by Vice-President P. J. Huth on the 1925 market, Harry Hayward connected with the agricultural department of N. W. Ayer & Son, nationally prominent as advertising agents, addressed the meeting. His address was both interesting and instructive and was probably the most important of the day, touching upon phases of the industry concerning which little is known to the average grower.

The balance of the afternoon was taken up by the representatives of various marketing and equipment companies.

DEPUTY ARRESTED IN RAID ON CRAPS GAME

Acting on the complaint of various Fort Bragg citizens to the effect that A. J. Lucas, a deputy sheriff stationed at Fort Bragg, was running a craps game, Sheriff Byrnes and Deputies Weger and Weselsky last Sunday night raided a small store conducted by Joe Randolph adjoining the Windsor hotel and arrested Lucas and Randolph. Lucas was brought to this city and placed in the county jail. Wednesday he was taken before Judge Busch and admitted to bail in the sum of $200, which he furnished.

The front door of Randolph's place was padlocked when the raid was made. Habitues of the place gained admittance by giving a password at the back door, which was kept barred. Byrnes and his deputies were tipped off to the password. They went to the back door, gave the password and were admitted before the doorkeeper learned who they were.

A pair of dice in the possession of one of the players was taken as evidence.

A complaint was sworn to by the sheriff against Randolph, alleging him to be permitting gambling on premises under his control. He was released by Judge Golden of Fort Bragg on his own recognizance. We understand a second complaint has been sworn to by the sheriff here, and the first one will be dismissed.

WEEK'S STORMS BRING PRECIPITATION OF 9.15

With a precipitation of 9.15 inches since Thursday evening a week ago, the rainfall for the season had reached the total of 18.12 inches as the Dispatch went to press last night. This is well up toward a normal rainfall for this season of the year. The average yearly precipitation is between 36 and 37 inches, and the average up to this time is about 22 inches. It has been some time since we had a normal season, however, and hence the rainfall this year is now up to about what has been usual for the past ten years.

BRANSCOMB COUPLE WED

Only one marriage license was issued the past week. It was to Edward F. Cox, aged 21, and Anna Haun, 18, both of Branscomb.

SONG KOW, JUEY MOW YING TONG BOW SING

There is a difference 'twixt tweedle-dee and tweedle-dum. One is tweedle-DEE and other is tweedle-DUM. Likewise there is a difference 'twixt Wong Lung and Wong Ling. One is Wong LUNG and the other is Wong LING. Both are Chinamen and both are restaurant owners of Ukiah, wherefore the poor newshound got mixed up in a recent edition of the Dispatch, when he credited Wong Lung with the accomplishments of Wong Ling, or vice versa, or something. It appears that the White House grill sale story in a recent edition of this sheet was all wrong.

Wong Lung owns the Palace grill but not the California grill, or Wong Ling owns the Palace grill but not the California grill, or——Well, anyhow, the one that owns the California grill doesn't own the Palace grill and the one that owns the Palace grill doesn't own the California grill. The one that owns the Palace hotel grill, we think it's Lung, bought the White House grill, which gives him two restaurants and makes him the restaurant king of Ukiah, and that is the point at issue. Lung, if that's the one, read the story and said: "Wasa malla you, tulla plunes?" from which we gather that we were wrong in crediting Ling with being the dictator.

Our apologies to both.

BASKETBALL GAMES TO BE PLAYED IN UKIAH

The Ukiah high school will, beginning tonight, take up the basketball schedule where it was abandoned on account of the influenza visitation.

Tonight the locals will play Upper Lake at the high school gyminasium here.

Next Wednesday night Ukiah will take on the Kelseyville heavies for the championship of Mendocino and Lake counties. This also will be an evening crammed full of interest.

Mr. and rMs. Will Bromley returned yesterday from San Francisco and San Rafael, where Mr. Bromley was called on business for the Savings Bank of Mendocino County. While in San Francisco they visited the auto show on two evenings, enjoying it and Paul Whiteman's music very much.

NON-SUIT GRANTED IN COAST DAMAGE MATTER

Attorney Irving M. Brazier, of the firm of Mannon & Mannon, and J. A. Pettis appearing for the defendants in the damage suit of Makela vs. Liimatainen, which was tried in the superior court this week, on Wednesday interposed a motion for a non-suit, after the case was about ready to go to the jury. After argument Judge Preston granted the motion and dismissed the case, discharging the jury.

The suit was brought by Makela after Liimatainen had caused his arrest on a charge of arson following the burning of Liimatainen's barn at Noyo several months ago. Makela was not held in the justice court and retaliated by bringing the suit for damages on the grounds of wrongful arrest.

Attorneys Brazier and Pettis handled the case for the defendant in a very able manner.

NEW FEATURE SECURED FOR DISPATCH READERS

With this isue of the Dispatch-Democrat, we add a new feature, "The Rambler". It is a column of thought and comment, pertinent and otherwise, observations prompted by the reading and daily contacts of the author.

The latter is a Ukiah man, a thoughtful student of men and affairs a keen thinker and an omnivorous reader. His comments will always be in kindly vein, with a broad tolerance for the thoughts and opinions of others.

We have been considering for some time adding a column of the sort from a press syndicate, but worth while syndicate matter is generally too expensive for small newspapers to afford and does not exactly fill the bill. "Rambler" will touch on local subjects from time to time, which a syndicate service is unable to do.

We belive you will like his contributions.

STORM CUTS OFF FT. BRAGG TRAINS

More high water in addition to that reported last week from the coast section was reported for the storm ending yesterday. Slides on the track and high water in the Noyo delayed the trains between Willits and Fort Bragg Wednesday and Wednesday night. A sleeper was brought through yesterday which had left the coast town Wednesday night.

At Mendocino, where the mill depends on floating their logs from the upper reaches of the river, all the logs of the company were reported to have come down.

High water and slides had cut off the Navarro highway, and coast bound traffic was being routed through by way of the cross road to Comptche, thence to Mendocino.

TEACHER SUFFERS ACCIDENT

Paul Beaufort, manual training instructor at the Ukiah high school, suffered a rather serious accident Wednesday while oiling the combination power saw of the department. The machine was running with the belt on the idle pulley, when it switched in some manner to the service pulley. The circular saw caught Beaufort on the arm, inflicting a deep cut. The wound was dressed by Dr. Rea and no untoward results are anticipated.

DOGS KILL SHEEP

About sixty young ewes belonging to Clarence Cox were killed by dogs on Mr. Cox's range south of town last week. With the price of sheep up to the present figure, the loss will run into something like six or seven hundred dollars. It's no wonder sheep men are continually at feud with "pet dogs."

Mr. and Mrs. Eb Cox and son were here from their ranch at Yorkville for a short visit the early part of the week.

Lou English, well known resident of Covelo, was in town on business the first of the week.

MUNICIPAL ELECTION TO BE HELD APRIL 12

Terms of Toles and Redwine as Trustees Expire. City Clerkship to Be Filled

In answer to inquiries regarding the Ukiah municipal election, for filling offices in Ukiah city, we print herewith the information relating to such elections:

Date of Election

The statutes provide that the municipal elections in cities of the sixth class, such as Ukiah, be held on the second Monday in April, which this year falls on April 12.

Offices to Be Held

There are two trustees to be elected at this election, the terms of Guy Redwine and Mrs. Toles expiring. As Senator Handy was appointed clerk to fill the unexpired term of F. E. Anker, the term of appointment ends with this election and the position of clerk therefore will have to be filled at this election.

Method of Nominations

Nominations are made by nominating petitions which may be circulated and filed not earlier than sixty days nor later than twenty days before the date of election. Nomination papers this year may be circulated after February 11th and must be filed by March 23d at noon.

Each candidate will require the signatures of not less than five nor more than ten qualified electors of the city, but only one candidate shall be named in any one nomination paper. The same set of signers may sign the nominating papers of two of the candidates for trustee this year but only one candidate for clerk. To be qualified to sign any nominating paper the signer must have registered since the first of January of this year.

Any person or persons may circulate a nomination paper for their candidate. No verification deputies are required.

The nomination paper must be accompanied by a verified statement of the candidate that he will accept the nomination and also accept the office if elected.

Candidates are not required to file any statement of expenditures.

MASONIC CLUB ELECTS

The Ukiah Masonic club elected its officers for this year last Tuesday evening. The old officers were Fred Handy, president, F. W. Reynolds, vice-president, and T. M. Cleland, secretary. The new officers are E. W. Stephens, president, N. A. Hornbrook, vice-president and Lilburn Gibson, secretary.

The club is making arrangements to conduct tournaments of various kinds and also to keep the club rooms open every evening.

CHILD BREAKS WRIST

Barbara, the little daughter of Mr. and Mrs. Lyle McCorquodale, had the misfortune to fall and break the bones of her wrist the latter part of last week. She was skating was the accident happened.

JUDGE BUSCH ANNOUNCES REELECTION CANDIDACY

Judge E. G. Busch, of this city, is announcing elsewhere in the Dispatch-Democrat this week his candidacy for reelection as justice of the peace of Ukiah township.

Judge Busch has filled the position for the past term, succeeding former Judge Hurley, when the latter was elected as district attorney. He has made a very competent justice, presiding in all matters with absolute fairness and impartiality.

Since Judge Busch assumed the office the operation of the prohibition enforcement law and the small claims court provision of the civil law have increased the work of the office tenfold, but Judge Busch has stood the increased burden of duties without complaining and has kept the work of the office up at all times.

His friends are legion and he occupies a very strong position in the hearts of the voters.

The Rambler

As this is the beginning of this column, perhaps it would not be amiss to write an introduction.

My name is unimportant. The worth of a particular job does not depend upon the workman. If it does not have merit, then merit should not be ascribed to it because of the name signed at the bottom. So what difference does it make who I am?

* * * * *

I shall not attempt to be "literary." You and I will sit before a cheerful fire in comfortable chairs with a box of candy or a pipe and talk things over. You probably will not agree with many things I say. If you feel so inclined, just write your ideas to "The Rambler" in care of this newspaper and you will have your inning. I will have to follow the rules of the paper and require your name. But, it will be kept confidential. Consequently, I will know you and perhaps you will know me. But those who read this page will only get our conversation. Again, if it is worth reading, what difference does it make?

* * * * *

Above all, in these conversations, let us be cheerful, optimistic, good-natured, tolerant of others and other persons' ideas. We must not get angry or lose our tempers for it might cause apoplexy. We also should be very careful not to wound another's feelings. Nothing of value is accomplished thereby and it only causes unhappiness. There is too much unhappiness in the world anyway.

Now that we understand each other, let us proceed on our ramblings.

* * * * *

It was Mark Twain, I think, who said he had heard so many people complain about the weather, but he never saw anyone do anything about it. Dr. McCowen, who kept weather reports for many years, said that every year he heard the same conversation about the weather, but with certain rare exceptions, it did not vary enough to worry about, and why worry? The rain comes and the frost and the sunshine. The trees bud and bloom and bear fruit. The wild flowers send forth their fragrance. In this valley, if life is not worth living, it is not the fault of the weather man.

* * * * *

The Senate finally passed the resolution making the United States a member of the World Court. But, what a lot of oratory there was! The people had made up their minds months ago. They did not fear the future despite the dire prophecies of Messrs. Borah, Johnson and Reed. I wonder how those phophecies will appear fifty years from now. The world is sick of war. It is willing to try any reasonable experiment which has as its object the outlawry of war. What if this particular experiment fails? There will then be an opportunity to try something different. Like a child learning to walk, if we keep at it persistently enough, there will ultimately be an end to war; if not, the Almighty should bring on another flood to start the race over again.

* * * * *

Our hunters should be thankful that they do not live in Oklahoma where the law requires that the license be sewed on the back where it will be plainly visible. In addition to his rifle, the hunter should equip himself with needle and thread, so that when he got warm and took off his coat, he could rip off the license and sew it on his shirt. If he found it necessary to take off his shirt, he would no doubt have to sew it on his bare back, or violate the law. If the present rate of law making continues there will soon be no such a person as a "law-abiding citizen."

The lot at No. 1 Wall street sold last week for an unnamed figure. Twenty-one years ago, this property sold at the rate of $25,000,000 an acre. There are many acres here hunting for a purchaser at $5.00.

Do you belong to the Save-the-Redwoods league. The annual fee is $2.00 a year. Robert G. Sproul, California Hall, Berkeley, is the treasurer. It is the most important conservation project in America and particularly to us who live on the Redwood highway. "It is our hope that this lovely work of the Creator may continue for many generations to bring happiness, health and inspiration to those who may linger for awhile among these remarkable trees—looking out here over the great Pacific—so noble in stature, of great age, but still so beautiful. Sometimes it has, indeed, seemed to me as if a strange mystery lay hidden within their sunlit crowns and along the deep shadows of their massive boles, as if they were too great for us fully to understand." Fossil beds disclose that redwoods were of forty-five species. They grew in France, Switzerland, Austria, Bohemia, Germany, England and Spitzbergen. In North America, they grew at the mouth of the Mackenzie river, in Alaska, in various parts of the Rocky mountains, in Oregon and California. Today two species are making their last stand in California—the Sequoia gigantea or Big Tree of the Sierra, and the Sequoia sempervirens or Coast Redwood, in a narrow fringe along the northern California coast. The purpose of the league is, among other things, to rescue from destruction, for the enjoyment of this generation and those to come, representative areas of our primeval foresis.

It is difficult to convince some people that a bank is more than a place with receiving and paying windows and a large safe with a burglar alarm. Your banker should be your confidental advisor in financial matters. When the next stock or bond salesman calls on you, I recommend that you say you prefer to talk the matter over with your banker before investing. It may mean the saving of your hard earned money. It may also mean striking up a new sort of acquaintance with the banker.

* * * * *

This is election year. Every eligible citizen should register and vote. But his duties as a citizen should not end with merely voting. That is merely marking a cross after a number of names. If an office holder has made a good record, is economical, efficient, courteous, caring for the public business as well, or better than he would his own, then why oust him? And if he has not, then why not oust him? An official not only has a job, but a public trust. To vote intelligently, every citizen should enquire how well the incumbent has fulfilled that trust, and whether the opponent would do as well or better.

HAPPY BIRTHDAY PARTY; OTHER CALPELLA NOTES

CALPELLA, Feb. 2.—A belated piece of news which should have been in last week was delayed by the illness of your correspondent. It concerned the birthday party given Bonnie Brydon. The party was a pleasant surprise. Some twenty of her friends gathered at her home for the occasion and surprised Bonnie as just as her mother got her ready to go to the movies, as she supposed. The evening was passed in playing games dear to childhood, and dainty refreshments were served, after which the guests departed wishing Bonnie many happy returns of the day. The living room was decorated with flowers and ferns. Little Miss Bonnie will long remember her tenth birthday.

Mr. and Mrs. George Carter, of Eureka, arrived Monday for a stay with their daughter, Mrs. T. Brydon. Mr. and Mrs. Carter have been living with their son, Walter in Eureka since last spring.

The many people who have been afflicted with the prevailing epidemic are out again, but still many feel the ill effects of the weakness which follows the disease.

School still continues with fairly good attendance.

Mr. Fulwider has now opened his place of business and is ready to serve the public. It is hoped the people will give their work to Mr. Fulwider, as the loss of the other barber shop was missed very much. Mr. Fulwider, in addition, it is understood, will have a shoe repair shop, which is much needed here.

Harley Snooks, young son of Mr. and Mrs. Snooks, who has been seriously ill, is reported to be recovering at the family home.

H. Mercer, of Ukiah, is getting ready to put down cement sidewalks and curbs for Mr. Tweedy on the highway, a much needed improvement to the service station of Mr. Tweedy's. Owing to the rain work is being delayed.

T. Brydon is having Mr. Hetrick add still more shelves in the new store. His business is growing rapidly and it is feared that he will still need more floor space. He will in the future add a store house.

Mr. McLintock is busy remodeling the building of Clyde Brewer's at the Forks. When finished it will be a big improvement to that place.

The many friends of Mrs. Susan Stinehoff are sorry to learn of the illness of her youngest son, Virgil, who is ill with pneumonia.

Miss Freeman, of Ukiah, is employed at the home of Mrs. Albert Dillon.

HOPLAND WINS FOURTH LEAGUE GAME FRIDAY

HOPLAND, Feb. 2.—The Hopland union high school's unlimited basketball team journeyed to Cloverdale to tackle the Cloverdale unlimited last Friday. The game was exceedingly well played by the Hopland lads, as they are used to playing in a small court. The first quarter ended with Hopland leading, six to four; the half ended with Hopland leading 14 to 7. She still further increased her lead in the third quarter to 20 to 9, and the game ended with a score of 27 to 11.

Hopland has won five straight games, four of which were league games. The four wins out of the scheduled six league games are a fine record. Hopland has to play the other league games with Boonville and Geyserville. The Boonville game will be played on the 12th at Boonville.

The Hopland high school will give a masquerade dance at the high school auditorium on the 13th of February.

Mrs. Stanley Watson is suffering from an attack of pneumonia.

NARROW ESCAPE FROM DEATH WHEN TREE FALLS

(Mendocino Beacon)

The fact that a leaning madrone tree deflected the fall of a big goose-pen pine Thursday night at the camp of Cecil Mallory on Big river is responsible for the fact that Mr. Mallory and several members of his crew are alive and uninjured today. The big tree fell about 10:30 Thursday night. Two cabins were in line of its fall and would have been crushed by it had its course not been turned by the protecting madrone. One of these was the cabin of Cecil Mallory and Mr. Mallory, Ray Mack and Bud Woodworth were seated in the end of the cabin when the crash came. The wind had developed into a gale from the south during the evening and just a few minutes before the tree fell one member of the group had mentioned the possibility of the pine falling but the others had assured him it would stand through the gale. This assurance had hardly been given when the tree fell. It cut across the opposite end of the cabin without injuring any of the three men.

In the other cabin were Value Paoli and Walter Nesela. Both were asleep in their bunks. Two other occupants of this cabin can attribute the fact that they are alive today to keeping rather late hours for the tree crashed through the end of the cabin where their bed stood and smashed it to smithereens.

Paoli and Nesela suffered a rude awakening when the big tree crashed in on them. A limb caught Paoli on the arm and scraped the skin off from his shoulder to his wrist. These boys literally awoke running and hotfooted down the trail for some distance thinking that some other big denizen of the forest might elect to follow suite and one narrow escape in a night was enough for them.

The crash of the falling tree brought out the whole camp and as the night continued stormy with high wind there was not a great deal of sleep indulged in until the storm calmed somewhat toward morning as there were some other trees that looked like they might follow the pine.

VALENTINES AT MORTY'S

CHAS. W. HOTSKIN CALLED BY DEATH AT WILLITS

(Willits News)

Charles William Hotskin passed away at his home in Willits Wednesday afternoon at the ripe old age of 78 years.

He was born in Iowa, November 4, 1848. He came to California in 1875 and to Mendocino county in 1881. Upon his arrival in this county he purchased a ranch near Westport and lived there for 25 years. About 20 years ago he sold his Westport ranch and moved here.

Charles Hotskin and Miss Anna Liza Cooper were married in Iowa in 1868. They were probably the oldest married couple in Willits, if not in the county, for they were married 58 years ago last September. Four children were born to this union, one of whom died in infancy. The living children are Mrs. L. S. Neighbors of Willits, F. D. Hotskin of San Jose, and Mrs. Mary Gordon of Manchester, Mendocino county. They also have 13 grandchildren and eight great-grandchildren.

McCRAY HILL TO BE IMPROVED BY COM.

CLOVERDALE, Feb. 3.—The state highway commission will take action this spring to cut down the grade on the Redwood highway leading to McCray's resort north of Cloverdale, it was learned here. The curve in the highway just north of here will be cut down 20 to 30 feet. Several lives have been lost as the result of wrecks at this curve. Other improvements in the hill road will be deferred, it is understood, as the highway commission favors construction of a river road to Ukiah as soon as funds permit.

E. V. Leek, well known resident of Hopland, was in Ukiah on a short business visit the early part of the week.

It is understood that a camp will be opened near Wendling very shortly to get out logs for that mill and that the mill will start as soon as logging gets under way.—Beacon.

R. H. Bellamy, who has been very ill with sciatica, was able to be about the early part of the week. He was confined to his home for about two months, and his condition was rather serious for a portion of the time.

EPH. WEISS GIVES ALL FOR EDUCATION IDEAL

Readers of the Dispatch will recall the ads formerly carried in this newspaper for Eph Weiss, traveling optician. Mr. Weiss formerly made this territory regularly and made many friends among the people of Ukiah and Mendocino county. The following recent news story in connection with him will therefore be read with much interest here. It says:

Dr. Ephraim Weiss, well known optometrist, has given everything he possesses for an ideal. He has donated practically every cent he has earned during his 64 years of life to the two greatest California institutions of learning, the University of California and Stanford University.

He has renounced all interest in an investment representing more than $120,000 in Berkeley and Palo Alto property and the income derived from his holdings will be distributed equally between the two large colleges.

Gift Is Unique

Dr. Weiss' sacrifice is unique in the histories of both universities. To make the gift he not only has given his savings of a lifetime, but he has signed over a life insurance policy and has mortgaged his old family home at Palo Alto.

Twenty years ago, Dr. Weiss purchased a lot in Berkeley and declared that some day he would erect a building there, the income of which would be used to assist students through the colleges of philosophy, physics and chemistry. Dr. Weiss' "some day" has arrived. On this lot there now stands a $60,000 apartment house containing furnishings valued at half that much. The optometrist occupies but one apartment; the income from the rest is used to aid students.

Will Not Retire

Dr. Weiss, when asked recently what he was going to do, stated that he intended to continue working. "I can make enough from my profession to keep me as long as I live," he said, "as I don't expect to retire until I die." For three years his novel gift was kept secret at his own request, but was revealed this week when it became necessary for legal documents to be filed by university authorities.

Before her death a year and a half ago, his wife, Mrs. Maria Weiss, affixed her name to a deed of trust which turned over the lot in Berkeley to the two universities. His daughter, Mrs. Rosa Weiss Sherman, and his son, Maurice, also have relinquished all claim to their father's property.

Dream Comes True

Thus Dr. Weiss' dream, which dated from the time he was a struggling student in Vienna and experienced the hardship of attaining a professional education, has been realized at last through the hearty cooperation of his family.

"GRANDMA" DUNLAP DIES AT COVELO

(Willits News)

Mrs. Lafayette Dunlap died at her home in Covelo January 25, at the ripe old age of 77 years. Her death was due to a combination of old age and an attack of the flu.

"Grandma" Dunlap was one of the oldest settlers in this section and she and her husband spent the prime of their lives on the old ranch near Spyrock. About thirty years ago this was considered the best fruit ranch in all that section and Mr. Dunlap used to supply the people of Covelo with his choice grapes and peaches. Mr. Dunlap died fifteen years ago and of late years she has made her home in Covelo.

She leaves six children, three sons and three daughters to mourn the loss of a kind and loving mother. The children are: Roy, Theodore and Leslie Dunlap; Mrs. Mabel Short, Mrs. Ida Redwine and Mrs. Lola Short. There are numerous grandchildren and four great-grandchildren. One daughter, Mrs. Ena Short, died last August.

The funeral services were held last Wednesday, all of the children being present.

MENDOCINO WOMEN AGAINST MRS. KAHN

(Mendocino Beacon)

The Women's Study club, Mendocino, Cal., were unanimous in their disapproval of the action of Mrs. Florence Pray Kahn, congresswoman from California, in introducing a bill to permit the sale of light wines and beer.

The following resolution has been formed:

Whereas, Congresswoman Florence Pray Kahn of California has seen fit to introduce a bill before the House of Representatives modifying the Volstead act to permit the sale of light wines and beer, be it resolved that we deplore this action of Mrs. Kahn's, feeling that it does not represent the true wish and thought of the women of California, and we are ashamed that such a measure should be introduced by a woman from California;

Be it further resolved that a copy of these resolutions be sent to Mrs. Kahn, a copy printed in The Mendocino Beacon, and a copy placed on file. Submitted by

Notes From Agriculture Class of Ukiah High School

Ukiah Wins at Ridgewood Contests

The Ukiah high school agricultural class won both the stock judging and pruning contests at the Ridgewood ranch last Saturday, January 30. In spite of the rain, there was a very good attendance at the contest and keen competition, especially in the pruning.

The pruning contest was judged by Farm Advisors C. S. Myszka and R. D. Foote, and by J. J. Thornton of Potter valley. The judges complimented the boys upon their good pruning and stated that the contest was very close. The placing and scores of the school teams were as follows:

Ukiah 817, Upper Lake 719, Willits 683, and Lakeport 672. Three boys from each school constituted a team. The Ukiah team, in addition to winning first place honors for their school, also placed as the highest three individual pruners. The individual scores were as follows: Ted Richey 97, Morris Norgard 89, Clyde Richey 86, all of Ukiah, and fourth place was won by Wesley Spencer of Upper Lake with a score of 84.

The fine herd of Hereford cattle of Mr. Howard's furnished material for a stock judging contest. Classes consisting of two year old bulls, yearling bulls, aged cows, and heifer calves wer judged. Mr. Cordell, the herdsman, and the instructors, assisted by L. C. Barnard, Lake county farm advisor, acted as judges. The scores of the schools were as follows:

First, Ukiah 190; second, Willits 187; third, Geyserville 145; fourth, Lakeport 122½. The highest individuals were Paul Hair of Ukiah, 103, Merrill Larsen of Willits 88, and Lloyd Heinsiman of Lakeport, 73.

But the best part of the day was the excellent banquet served at noon by the staff of Mr. Howard's Ridgewood ranch under the direction of Mr. Cavanaugh. In the absence of Mr. Howard, Mr. and Mrs. Cavanaugh royally entertained their guests and their hospitality was very much appreciated by everyone present.

Among the guests were Jay Lee Smith, R. R. Ingels, J. J. Thornton, J. G. Newman, W. A. Chessall and Arthur H. Sandrock of Ukiah. Farm advisors present were C. S. Myszka and R. D. Foote of Mendocino county, L. C. Barnard of Lake county, and M. E. Bossevain of Marin county. The agricultural instructors present were E. B. Healton of Lakeport, G. W. Sahr of Geyserville, L. M. McQuesten of Willits, and Arthur Shultis of Ukiah. Ned Sleeper of Upper Lake accompanied the Upper Lake pruning team.

MENDOCINO NOTES

(Mendocino Beacon)

Will Keep Stock Off Highway

Capt. R. S. Ryder, head of the county traffic squad, is issuing a warning to all owners of stock running on public highways that they are subject to arrest and prosecution under the provisions of a section of the motor vehicle act.

A number of serious accidents have been narrowly averted recently as the result of stock running loose on county roads and numerous complaints have been made against this practice and Capt. Ryder has been appealed to enforce the law. The law does not apply to highways alone but to any public thoroughfare open to travel and maintained by city, county or state.

Loses Finger at Mill

P. F. McCarthy, employed at the mill, met with a painful accident last Thursday afternoon while working at the resaw when his left hand was badly lacerated and crushed back to the joint. He was taken to the office of Dr. Preston, who bandaged the injured member and sent him to the hospital at Fort Bragg.

Auto Hangs Up On Steep Pitch

Tuesday night as Ellis Liljeroos of Fort Bragg was trying to make the steep pitch at the foot of the big hill on the road to Boyle's camp, his auto skidded on the slick road and the rear end slipped over the bank. The car swung around and completely blocked the road to travel for several hours or until the S. & E. garage could send out their wrecking car and haul him back onto the road again.

Climbed Log

While rounding a sharp curve in the road on his way to Boyle's camp an autoist ran his Overland car over a 20-inch log at the side of the road and over the road embankment. It plunged down a short distance and came to a stop in the underbrush, standing on its nose.

Has Narrow Escape

While Gus West of Fort Bragg was en route to the northern city last Wednesday driving a Studebaker car his machine left the road on the sharp turn north of Jack Peter's gulch and went over the road embankment and brought up against a fence which stopped the car from plunging into the ocean. The car top was quite badly damaged; also one door but its occupants were uninjured.

Arrests Reckless Driver

R. A. Hewitt was arrested on the south coast last Sunday for reckless driving by a traffic cop who testified that Hewitt passed him on a turn going at a high speed. He was taken before Judge Golden at Fort Bragg, who fined him $25.

HOPLAND BASKETEERS DEFEATED BY WILLITS

The basketball game between the high school teams of Hopland and Willits, held Wednesday evening in this city, was a hotly contested game from start to finish. The score stood 18 to 17 in favor of Willits. On account of the storm Willits was not strongly represented in the rooting section. The Hopland team was well backed by home supporters.

AN HONORED GUEST

An honored guest at the pear growers' association banquet held Tuesday in this city was Mrs. Sol Runyon, the largest pear grower in the Sacramento valley. Mrs. Runyon attended the sessions in Ukiah and the following day went to Lake county for the meetings there.

She is the owner of some 2,000 acres of the finest river land in the Sacramento valley. Has 500 acres or more in asparagus, besides sugar beets, etc. Since Mr. Runyon's death more than 20 years ago she has had full charge of these extensive properties and has shown such ability as a business woman that she has reached the executive bodies of a number of large business associations.

Mrs. Runyon and her niece, Mrs. Myrtle McLain, were guests at dinner in the Hale McCowen home Tuesday evening. Mrs. McCowen and Mrs. Runyon are friends of many years standing. Mrs. Runyon is a past treasurer of the grand chapter of Eastern Star and greatly interested in the work of the order. FAMILY ALBUM SHOWN

The Family Album was unfolded for the pleasure of the members of Kingsley Chapter, Order of Eastern Star at the meeting Monday evening. Miss Una Raffety dressed as a boy was entertaining guests while they waited for Mother to appear. The program was planned by the men and in costume they represented the well known photographs which filled the family album from cover to cover. Among those who posed for the pictures were Dr. G. W. A spotlight was played on the pictures and a most attractive setting arranged. Supper was planned and served by a committee of the men, dressed in the costumes of the pictures.

The committee in charge of the program included Dr. G. W. Stout, J. C. Reifschneider, William Chessall, Frank Sandelin, W. E. Pitts, Frank Wilson, J. C. Hurley. Others who assisted were O. F. Graf, William Bromley, Fred Waugh, Wm. Van Dyke.

HEAR NOTED PIANIST

Mrs. P. H. Joseph spent the last week end in San Francisco. She went down with the purpose in view of accompanying her daughter to the concert given in San Francisco last Saturday evening by Mischa Levitzki, the noted pianist.

Both Mrs. Joseph and Miss Frances were charmed with the program presented. In addition to the program the artist rendered eight or ten numbers by request, following the close of the regular program. San Francisco audiences are beginning to request and demand these extra numbers. The specially interested gather round the stage and enjoy the numbers.

During this session last Saturday evening, Miss Frances was fortunate enough to secure an autographed program from Levitzki. The artist is a Russian pianist for whom critics predict a brilliant future. He is now only 27 years of age and has appeared in concert in New York City more than three score times. With her musical studies at Mills, Miss Frances has the advantage of hearing the musicians who appear in San Francisco.

GIRL SCOUTS

Mrs. Lawrence Moore, who has twice accompanied her husband to Ukiah, during the past few months, is one of the leaders of the girl scout organization in Piedmont. While talking to Ukiah women, during the brief visits here, Mrs. Moore quite naturally dwelt upon the work which is of such vital interest to her. She has inspired in the minds and hearts of a number of women who heard her understanding and earnest description of the work, a desire for the benefits of such an organization in this valley.

Mrs. Moore pointed out the large opportunity for such work here. In Piedmont the girls come almost exclusively from wealthy families whose children are surrounded by all the opportunities afforded by the bay region. Notwithstanding this competition they carry on a very large and active scout organization. In this community there is so little of vital interest to young people unless it is actually developed by the home itself.

Mrs. Moore told of the walks and camping trips where plant and animal life were studied from observation. She called attention to the wealth and the accessibility of such opportunity here; to the fact that the young girls of this community have so little else of real value to hold their attention over a week end, free from school duties. She told of the groups of ten girls who met at the different homes, and who went into the home kitchens and together prepared some special menu; cleaning up the kitchen thoroughly before they left the home. She told of the sewing done for children in hospitals and homes.

These are only a very few of the suggestions offered by the well founded organizations of either the girl scouts or the girls' reserve. It is not a work that has to be initiated; it is carefully outlined, and has been thoroughly tested in many communities.

The women to whom Mrs. Moore was speaking told of the lack of leadership and lack of funds for such work. But she insisted that leaders could be found if the effort were made and that the funds required were very small. Herself the wife of a loyal Rotarian she offered as a suggestion that the local Rotary club would in all probability be willing to help raise such funds.

Mrs. Moore is the wife of Lawrence Moore, who was the speaker at the recent chamber of commerce banquet and at the Rotary club. She has several children in her own home and in conversation made the passing remark that she never attended afternoon parties or took any part in the club work, devoting her energies outside of her home to the girl scout work.

FEBRUARY CARD PARTY

Plans for a card party to be held early in February at the home of Mrs. Frank La Porte were made by Kosmos club at the business session last week end. The club met at the home of Mrs. C. D. Atkinson. Mrs. Belle Day, Mrs. Harriet Deering and Mrs. T. J. Williams assisted the hostess in receiving and entertaining the members. The Atkinson home was decorated in potted plants, narcissus and marigolds.

A GENEROUS GIFT

Members of Kosmos club are being congratulated on the generosity of the gift which has secured for them a building lot for a new clubhouse. Club women in all the organizations are thrilled over the gift and enjoying with Kosmos club their good luck. The lot is a desirable site and fitted in every particular for a club home. The gift of the lot was made by Mrs. Laura Shattuck. It has very greatly encouraged Kosmos club members in their efforts to secure a clubhouse of their own.

HOLIDAY DANCE

Social Affairs

TREE PLANTING

The storm and the sickness have combined to demolish the social calendar. It is rather interesting to note that while dates for parties and dances have not been forthcoming, in response to telephone calls from this office, suggestions of work that might be done in this community if only it could be initiated and carried out have been plentiful.

One Saturday Afternoon club woman offered the simple suggestion that she wished the club would periodically, if only once a year on Arbor Day, plant a tree, preferably a redwood tree, somewhere in this city. Trees are constantly being cut down or decaying and falling, and so little is done toward replanting. She called attention to the redwood tree planted by the Saturday Afternoon club in the courthouse plaza. This was planted in 1916 in memory of the boys who were in the world war.

There were two redwoods planted by the club, one each side of the old gate entrance to the municipal park. One of them was accidentally destroyed when the memorial arch was

CORDIAL WELCOME IS BEING PLANNED FOR CAPT. HAL STANDLEY

Ukiah will be the center of a gigantic home-coming reception to be tendered Captain William Henry Standley when he crosses the Golden Gate in command of the U. S. S. California, the flagship of the Pacific fleet.

Captain Standley, who has been stationed at Washington, D. C., has been placed in command and will join the California at Panama about February 15. The battleship has just left San Diego for its destination at Panama.

Meeting at the Fairmont

As soon as the word of the appointment reached San Francisco, a score or more friends of Captain Standley and former Mendocinoites met Tuesday evening of this week in the office of Marshall Nuckolls and made the first plans for the home coming of Captain Standley. A general meeting has been called for Tuesday evening of next week at Hotel Fairmont in San Francisco. J. H. Kirkpatrick will represent Ukiah at this meeting.

Reception at San Francisco

It is the policy of Mayor Rolph and Governor Richardson to extend most cordial greetings to California "boys" on their return to their home state. It is the strong desire, however, of Mendocino people in San Francisco, that the reception to Captain Standley both here and in San Francisco be carried out in the name of Mendocino county.

Caravan to Ukiah

It is planned to have a caravan start from San Francisco bringing Captain Standley with many of his officers and men over the Redwood highway to Ukiah where his old friends and friends of the family for two generations will tender him a welcome such as California has never seen. It is expected that the fleet will arrive in San Francisco about April 1st.

Gift of Silver Service

The plan to honor Captain Standley when next he returned to California has long been in the minds of Mendocino county people. Plans have been discussed on more than one occasion before the Mendocino County Society in San Francisco and among friends of Captain Standley in Mendocino county. Included in this plan is the gift of silver service, specially designed and engraved for use on the California.

Native of Ukiah

Captain Hal Standley is a native of Ukiah. He was graduated from the Annapolis Naval Academy in 1894 and made his first cruise in Japanese and Chinese waters on the U. S. S. Olympia. At various times Captain Standley has been stationed at Manila, Mexico, San Francisco, Mare Island, the war college at Newport, Washington, D. C. When the fleet combined on the Pacific Coast he became aide to Admiral Eberle, commander of the fleet.

The Family

He married Evelyn Curtis, a daughter of Mr. and Mrs. J. D. Curtis, former residents of Ukiah. The only son, W. H. Standley, Jr., was recently graduated from the U. S. Naval Academy and at present is with the fleet on the U. S. S. Tennessee. Mrs. Standley and the daughters left Washington, D. C., the first of this week and have arrived at their home in San Diego. They will come north to join Captain Standley when the fleet arrives at San Francisco.

Captain Standley is a son of the late J. M. Standley, famed in Mendocino county history for his fearless record as a sheriff of this county. He is a brother of Mrs. J. A. Jamison, Mrs. E. B. Gibson and Mrs. Louis Hildreth. News of his appointment and future plans were received by wire by the family in Ukiah the first of the week.

Former Friends

Among the well known Mendocinoites now in San Francisco who are interested in the plans for the home coming of Captain Standley are John L. McNab, Marshall Nuckolls, Dr. Susan Hamilton, Mrs. Jennie MacMillan, Mrs. Celia Lobree. It has long been the custom for communities represented in the navy to pay special tribute to such representatives. No more fitting occasion could have been presented than the visit of the Pacific fleet to San Francisco with Captain Standley in command of the flagship.

COAST MAN HURT IN AUTO ACCIDENT

CASPAR, Jan. 29.—Wm. Nylander left here Saturday by auto for Richmond to spend a few days with his family at that place and expecting to return the first of the week. Instead of returning by auto as he departed he returned by train, having met with an accident near the Point San Quentin ferry in his haste to catch the last boat over at night. When near the ferry he ran into a fog bank which was very thick, causing him to run into the side of the road and upset his machine and smash it up to a very considerable extent and for some little time he lay there unconscious. Fortunately he was not seriously hurt and shortly came to and made his way back to San Rafael where he spent the night.

An Agent of Activity

IN the one hundred and fifty years that have passed since the birth of the nation, the area of the United States has grown from the narrow strip of territory along the Atlantic seaboard to a domain of 3,000,000 square miles.

There is nothing comparable in the world to the varied and continuous activity in this vast area. The United States leads every nation in the world in industry, agriculture, and commerce, — in the output of its mines, the products of its forests, the crops of its soil, the goods of its factories, the volume of its trade.

It also leads in communications agencies for the rapid and dependable interchange of thought. Two-thirds of the world's telephones are today in the country's homes, offices, and factories. Fifty million times daily the wires that interconnect them are used for the transaction of the nation's business.

Both school grounds and many other places in this city would be improved by planting of trees, at least to the extent of replacing those that are going. The suggestion is a good one and could be carried out by various organizations.

HEAVY COAST RAINS BRING LOGS DOWN RIVER

Few people had any idea that the rain starting Thursday afternoon would produce anything like freshet conditions in local streams by the following morning but the rain came down in very heavy showers at times and continued at intervals all through the night so that despite the fact that all streams were comparatively low for this time of the year a good volume of water came on short notice and when the north fork dam was tripped Friday morning at 6 o'clock it is reported to have carried all the logs in that stream out into the main river. Friday logs were reported to be going past Boyle's camp in considerable numbers and it seems likely that some of these at least were from the upper river. In any event a quantity of logs along the lower river have come in.

Quite a number of trees fell across the new Navarro highway. Some early morning travelers were held up and helped the road crew cut out some of the trees. There were quite a few small slides and in many places large rocks rolled into the roadbed. In some places these came in on turns so autoists are especially warned to proceed carefully for the next few days for these rocks, some two feet through, may be encountered on short notice. Where two cars essay to pass on a turn trouble is very likely to result. As the storm is not over it may be some days before these slides stop coming in.

The latest estimate as we go to press is that about 3,000 logs have come down to the boom.

RARE FILM TREAT CLOSING TONIGHT

One of the greatest casts of screen stars ever assembled for a single motion picture is seen in the William Fox screen version of the international stage success "Havoc," which ends its engagement at the State theatre tonight.

George O'Brien, in the leading male role, proves himself to be of true stellar calibre, and, with the capably brilliant aid of such screen favorites as Madge Bellamy, Margaret Livingston, David Butler, Harvey Clark and Eulalie Jensen, he invests this picture with the highest form of histronic achievements. Rowland V. Lee deserves his full quota of praise for his directorial accomplishments in this feature.

POWERFUL THEME FORMS BASIS OF "WINDING STAIR"

"All rising to great place is by a winding stair."

On that quotation "The Winding Stair," the John Griffith Wray production, is based. This William Fox picture, adapted from the famous A. E. W. Mason novel of the same name, which opens Saturday at the State theatre, deals with a most powerful and human theme—that of a man torn between his love for a woman and his honorable place among his fellowmen.

No more colorful nor dramatic story has been filmed in many years than this Mason novel. Supporting Mr. Lowe and Miss Rubens in the cast are such notable players as Mahlon Hamilton, Warner Oland, Chester Conklin, Frank Leigh and Emily Fitzroy.

"THE EVERLASTING WHISPER" IS STRONG STORY OF THE RUGGED NORTHWEST

"The Everlasting Whisper," the screen adaptation of Jackson Gregory's novel in which Tom Mix is starred, and which opens Sunday at the State theatre, is one of the finest stories in which the noted William Fox western star has ever appeared. Directed by J. G. Blystone, the picture is based upon the lure of the rugged Northwest, involving action as thrilling as the romance of the story is beautiful.

The picture combines the appealing Mix personality with a new trend of drama which has resulted in excellent entertainment.

Mix, is his usual dashing red-blooded self, while Alice Calhoun and Robert Cain also do fine work. Others in the cast, all of whom will please, are George Berrell, Noble Johnson, Virginia Madison and Karl Dane.

HUMOROUS MOVIE DRAMA PRODUCED FROM STAGE HIT

Said to follow the original play by W. Somerset Maugham more closely than any recent production has followed its original, "The Circle," directed by Frank Borzage for Metro-Goldwyn-Mayer, comes to the State theatre next Wednesday.

The production is an English comedy-drama with a satirical and ironic twist. It is filled with many humorous situations and although it has for a basis a serious subject, it has been treated in a light vein.

Eleanor Boardman plays the part of the young wife in a convincing manner. Malcolm McGregor portrays the part of her lover and Creighton Hale is the irritating young husband. Alec B. Francis, George Fawcett and Eugenie Besserer form the first triangle. Eulalie Jensen and Otto Hoffman have character roles.

EXALT WOMAN OF '49 IN PRODUCTION

Innumerable pictures have been devoted to the heroes of the epic California gold rush of '49. It remained for Vingie E. Roe and Frank Lloyd to give the heroine of this great epoch her due.

"The Splendid Road," a First National film featuring Anna Q. Nilsson, Lionel Barrymore and Robert Frazer, which is booked for the State theatre soon, is the screen compliment to America's pioneer womanhood.

M. J. Blackson has been laid up with the flu this week.

Mrs. Ernest Ruddick has been confined to home with a relapse following the flu.
